

UU Psi Symposium Summer Conference
August 22-29, 2009
at the Ferry Beach UU Conference Center, Saco, Maine

This is an important year for Psi! We will be celebrating the 40th anniversary of the founding of UU Psi Symposium, and the 30th anniversary of our first summer conference at Ferry Beach. This summer you have the opportunity to join in the anniversary festivities and also to treat yourself to an INNER JOURNEY vacation.

Caring for Ourselves and Our Planet
is the theme of this summer's conference.

The six-day morning workshop will offer instruction in the Law of Attraction, and the opportunity to go deeper, coming to an understanding of what we *really want* to attract into our lives, and how to do it; what keeps us from it; and how we attract that which we *don't want*. This is an experiential workshop and deeper understandings will come.....through journaling, creating art projects, meditation, guided imagery, and sharing experiences.

The Leaders for the morning workshop are Laura Yurko, who has a Master's Degree in Counseling Psychology, and training in expressive arts and energy healing, and Sibylle Baughan, a long-time Ferry Beach workshop presenter, and director of the Yoga Center for the Healing Arts.

One afternoon workshop will focus on taking care of Mother Earth...

“The Low Carbon Diet- A 30 Day Program to Lose 5000 Pounds”.

This will be led by Ron Giancola, who has spearheaded the Green Sanctuary movement in the Pittsfield, Mass. Unitarian Universalist church

The other afternoon workshop will help us care for ourselves through experiencing

“Stress Reduction through Movement”,

led by Linda Giancola, a member of the Berkshire Psi chapter.

IT'S OUR ANNIVERSARY!

Not one but two PSI anniversaries....

Forty years ago, Rev. Bob Slater organized the group that a year later became known as Unitarian Universalist Psi Symposium. Then, thirty years ago, we held our first summer conference at Ferry Beach. This summer at Ferry Beach, on the weekend of August 22-23, Psi Symposium will hold its 40th and 30th anniversary celebrations. We will have special speakers and we are hoping that alumnae will return for the weekend festivities....more about specifics in the next Newsletter.

Right now we are calling on all those who were in on the beginnings of Psi, those who have memories of interesting Psi happenings, or who have attended the summer conferences over the years to share their memories.

UU Psi Symposium to Celebrate A Double Anniversary

UU Psi symposium was founded 40 years ago....and began holding summer conferences at Ferry Beach 30 years ago! On August 22 and 23, this double anniversary will be celebrated at the Beach by the Psi Symposium Board, conferees, and alumnae. Returning to speak on Saturday night will be Psi's founder, UU minister, Rev. Robert Slater.

What is Psi Symposium, you ask? Psi, the Greek letter, is a shorthand term for "psychic phenomena". The organization was started by Rev. Slater at the Boston General Assembly in 1969 when he scheduled an ESP lecture-demonstration, and more than 300 UUs showed up to hear it. The people at this meeting were interested in continuing to explore ESP, and Psi Symposium was born. Since that time, Psi Symposium has formed chapters across the country – currently six in number – and its interests have broadened to include mysticism, metaphysics and spirituality; parapsychology and psychic skills; holistic health and healing; life after death; and unexplained phenomena such as crop circles, earth energy, and extraterrestrial intelligence.

Psi Symposium began holding summer conferences at Ferry Beach in 1979, and at one time was the sole conference during its week, with its own store selling New Age books and materials. Over the years Psi workshops have featured psychics and scientists, energy healers and clairvoyants, mask makers and astrologers, shamans and ministers (both UU ministers and those from other churches.) We have listened to channelers of spirit guides; gone on shamanic journeys; explored past lives; learned about Native American spirituality and ceremonies; were instructed in Sufi dancing; practiced dowsing; strengthened our intuition; participated in healing with energy; and traveled afar through guided imagery and music.

Through being open to new experiences having to do with consciousness and spirit through Psi explorations, we have come to appreciate the mysteries of the human spirit and, through exploring them, discovered our connection not only to the world but to each other. That spiritual discovery allows us to heal ourselves, each other, and the Earth itself.

The 2009 Annual Meeting of Psi Symposium will be at Ferry Beach, on Sunday August 23. We will be voting on some By-Laws changes which will be outlined for review in the Summer Newsletter

Editor's Note: The UU National Board is reviewing the Independent Affiliate status of the myriad groups who enjoy this recognition in our denomination. This means that Psi will no longer be included in the annual General Assembly programs which allowed us to have a speaker, workshop, etc. The affiliates are being challenged to form associations/groups – consolidating, in other words. Our Psi Board has been discussing this and here is Roberta Watson's (Clearwater, FL convener and organizer/spokesperson for us at the 2007 GA) response:

"I was present, on behalf of PSI Symposium, at the "theological" meeting of the group of meetings held at the 2007 GA, and do believe I recall that 2007 statement about us forming a council of spiritual practices. Several groups expressed the key problem with it, and that is that the spiritually based groups are focused on particular ideas that they want to maintain within UUism, so they would still need their organizations, and the "association of associations" that was being proposed would require yet another level of organization, for which many of those present indicated that they didn't personally have the energy to do over and above their own organizations. There was a ListServe started as a result of that meeting, and occasionally a message comes through on it about sharing something or other, but it is rarely used and most posts are not even responded to.

My sense of the theological organizations is that they don't particularly want to be partners with PSI Symposium. In some cases, their views simply aren't compatible with ours (UU Christians, Jewish UUs, etc.). Philosophically, we could BE a coordinating group for several of the organizations as their areas of focus are within the range of studies to which we are receptive (UU Buddhists, UU Pagans, even UU Mystics, etc.). And I have spoken with the leaders of some of the organizations in this latter category, and it is clear that they are newer groups than ours is and they have their own energy and no interest whatsoever in giving up their autonomy to become part of PSI Symposium. In some cases where I thought there might be compatibility (Mystics, particularly), I was given an outright rejection of any idea that our groups were compatible. (Mystics, apparently, is interested in the mystical experience, but not to "believe in it," whereas most PSI Symposium members actually believe that there is "something out there," and our discussions have to do with its nature and how to apply those principles to our lives. I'm not clear exactly what Mystics wants to do with its area of interest, but it isn't to support anybody's "new thought" belief system.) Thus, I see no chance of our combining forces with other groups within our sphere of interest other than as a "Council of Councils," and I don't sense that any of those groups (any more than we) have the energy to organize, or even participate in, such an overarching organization. And even if we participated in an overarching organization, I don't see how that would allow us to put on programming aimed at people interested in our views – rather, the "Council" would be focused on representing all the constituent groups equally or together.

Just as PSI Symposium was founded (and run for most of its life) by UU ministers and former ministers (at least that is my perception), the other newer groups seem also to be headed and energized by ministers. Ministers have access to political contact within the denomination, and knowledge about how it works, that we lay people don't normally have. I have no idea how to do this, as I don't belong to any networks of ministers, but PSI Symposium could really use some ministerial young blood. Otherwise, it may simply be that our purpose was to provide a haven to those interested in new age ideas when nobody else in the denomination was interested, but there may now be enough acceptance of those ideas that our constituency has been diluted by the more specifically focused groups (Buddhism, for example). What do others think about this? If we really don't have any hope of regaining IA status, and if we will not receive any support (programming slots) from the UUA, and we can't get people involved who are really CONNECTED within the UUA so as to go to bat for us to get SOME resources, what do we see as our future, and if we have a future how do we get there? And how do we find ways to replenish our treasury

Roberta Casper Watson

Glen Snowden writes: Roberta is asking us to consider: what is the future of Psi Sym, organizationally speaking? Can we cope with the organizational challenges? Or is it in our highest and best interest - personally and communally - to let it go? If we do decide to let it go organizationally, we will, however, never let go of the personal/spirit connections that have so deeply nourished us nor will we ever let go of the psi topics that have so united us. Glen

Shirley Pratt writes: I think we should STOP worrying about this IA thing and get on with what we do best. We have members who are interested in us for what we can give them whether it be for curiosity, reassurance, information, or whatever. I think we are wearing ourselves out. Other groups don't want to join with us, so let us not be worried by this fact. We gave it a try. Now let us get back to being ourselves. We still have the chance to have something or someone at GA. We still have Ferry Beach. And we still have our journal and newsletters!!!

The 5 Secrets to Becoming an Unstoppable Manifestor!

By Margot Zaher and Jafree Ozwald

www.EnlightenedBeings.com

Would you like to be able to manifest ANYTHING? You have the ability to tap into the infinite possibilities that make up this amazing Universe, and actually make them into a living reality. Whatever you can imagine can literally happen. You can manifest anything you desire when you remain open and willing to see the infinite possibilities. This openness is your ticket to finding the feeling of being unstoppable in your life. When you explore this daily, you'll find yourself living a life of unimaginable success, laughter and love!

The differences between the people that tap into their unlimited potentiality and those that remain stuck, are their energy, motivation and attitude. Many people give up on manifesting their dream after they encounter a large difficulty or set of obstacles. They let themselves be stopped, and forget the essential truth of the Universe; that everything consists of energy, consciousness and unlimited possibilities. Whenever you fall prey to the burdens of overwhelm, failure and "I can't do it", simply remember this one essential truth. You will adopt a new attitude instantly knowing that you are connected with that which is unstoppable. At the very core of your being is this truth. You already are that! You already are a powerful manifestor who is truly unstoppable. If you don't feel this yet, keep reading and we will show you how to tap into this amazing energy.

Here are five secrets to start your unstoppable manifesting engines!

5. Reprogram your mind to feel unstoppable

Proclaim each day that you are unstoppable! Tell yourself that you can manifest whatever you set your mind to achieving. Remember what you hold your focus on is what grows stronger in your life. Focus on FEELING unstoppable and this is what will show up more frequently through your day. We suggest that you state outloud the affirmation, "I am unstoppable" at least 5 times each morning when you first look in the mirror, and say it with deep emotional feeling, letting it spread throughout your body.

2. See all challenges as opportunities

Whenever you meet a difficulty or a roadblock, see it as an opportunity for growth. How can you evolve from this experience? Look inside yourself. What needs to shift so that EVERY problem that comes your way becomes something that of an opportunity for growth and learning? Make solving problems an exploration of that fun adventurous child in you! Get together with some friends and do some brainstorming on problem solving. You'll be amazed at how much you grow! When you are feeling blocked, remember that there is always a solution waiting to be discovered. Often it comes unstuck when you allow other people to help you.

3. Ask the Universe for support

The Universe is an alive, highly conscious field of energy and intelligence. It wants you to become unstoppable and manifest all your greatest dreams and desires. It is just waiting for you to ask for guidance. Once you send out a strong request to the Universe, your request will be answered. The Universe will assist you in overcoming any obstacle that you might encounter. Some of the easiest ways to send out a request to the Universe include:

- Writing a letter to the universe describing in detail what you need and thanking the universe for providing it at the end of the letter.
- Going into a meditative state and asking the universe for help.
- Affirming daily that the Universe is supporting you. Two good affirmations to repeat are "I am completely supported by the Universe and the Universe is providing the answers I seek."

4. Tap into what you are passionate about

The more passionate you are, the faster your dreams tend to manifest. When you are excited about something, you naturally raise your manifesting vibration and EVERYTHING manifests easier and faster for you. So when you feel blocked, just refocus on why you really really want this to happen. Focus on how the world will be a better place because you have manifested this. This energy of passion can literally burn through the obstacles and give you ways around the blocks you have encountered. Passion is such a powerful energy that it can literally attract new opportunities and solutions to you.

5. Take only inspired actions

When you put forth energy into the Universe, it reverberates back to you one thousand times stronger. The energy you send out must in some way be answered by the Universe. So if you send out inspired energy in the form of action, inspired results will soon come your way. To get into inspired action, ask yourself, "What do I really feel like doing right now?" Then go and do whatever moves your soul. As you continue to practice this, you will discover that you will naturally find solutions to whatever challenges you have, and will soon manifest whatever it is that you desire.

- Importance of the Clown Chakra -

Scientists have found that all our problems can be placed under one heading: Seriousness. Seriousness is the leading cause of everything from Cancer to Reincarnation.

Scientists have already discovered a new source of healing. It is a psychic energy point located between the heart chakra and the throat chakra. It is called the Clown Chakra.

If people are feeling miserable, if they have financial problems, if their relationship situation is the pits, if they are in ill health, if they have a need to sue people, if they find fault with their fellow humans, then obviously, their Clown Chakra is closed.

When this happens, the scientists have observed under a high-powered microscope that the cells of every organ display a sad face, and when the Clown Chakra is open and functioning normally, the cells display a happy face.

The scientists realized that if a person is ill, it is because his mind has projected guilt onto the cells of his body and has forced out the love that is normally found within each cell of the body. The cells are therefore saying, "I Lack Love," or "ILL" for short.

The scientists also discovered that all disease is due to the fact that the cells are out of ease or dis-eased.

When the Clown Chakra is opened and working (or rather, playing properly, the psychic mechanism sucks up misery, pain, anger, resentment, grievances, unhappiness, etc., and converts the energy into tiny red heart-shaped balloons. The red heart-shaped balloons contain Love and Joy. These balloons are directed to the diseased cell or situation, and a happy face appears instantly.

When the light enters the darkness, the darkness is gone. Sometimes these red heart-shaped balloons are called endorphins, due to the fact that when anyone experiences them, the feeling of separation ends. They experience being back home with All That Is and hence are no longer an orphan. This is the well-know end-orphan effect.

So if you think someone is attacking you, Clown Scientists recommend that you visualize sending that person red heart-shaped balloons filled with Love and Joy.

Remember to keep your Clown Chakra open . . . and remember to laugh.

Seriousness causes Reincarnation.

Editor's Note: There has been much speculation regarding extra terrestrial presence around us. This reached a crescendo of excitement last October, 2008, that a visitation would occur (cite Messages from Matthew). It did not happen but is still expected at some more opportune time. So I include these sites for your use and encourage you to check them out – particularly the Bob Dean interview. One of our Lancaster Psi members has had several experiences with this phenomenon and her father “was at SHAPE outside Paris some of the same years we lived in Louveciennes which was about a mile and a half down the highway from SHAPE. My father was the commanding officer of the AF OSI (Office of Special Investigations - Project Blue Book, etc) for France and part of Spain and Italy. His office was right in Paris and he would ride a military bus into the city, but it also stopped at SHAPE. I did it for several months with him.”

And then there is this message from Shirley Pratt, Membership Chair after watching the Bob Dean piece: “IF you think that is strange my experience was doubly strange. I was changing channels in Lunenburg (our cottage) one night at 9pm, when I hit the local channel. But there was nothing local about it. A doctor Steven Greer was giving a lecture on UFOs, aliens, and a secret device which only cost about \$15 to make, but can harness the energy in the air. He had written a book entitled "Disclosure" about all of this. He told about having someone building this device (a small box about 15" by 15") and the man was murdered. He had spent four years interviewing retired pilots and military men who were now able to talk about what they had seen, including aliens that had crashed on earth. Also about people who were killed because they knew too much. I watched this for a whole hour. Obviously, I was meant to see it, but I don't think it was really on that channel and I don't know where he was giving the lecture. I have been concerned about him ever since. His book is called "Disclosure" and I ordered it on line. Fascinating. The book was printed in 2001 and I hope he is still alive.”

Therefore, I include these sites for your exploration – they are very interesting. Jo-an R. Glasse

Bob Dean interview: Cosmic Top Secret

<http://www.consciousmedianetwork.com/members/bdean.htm>

Bob Dean is a retired Command Sergeant Major in the US Army, who became notable in UFOlogy circles after he claimed to have viewed "Cosmic Top Secret" documents detailing alien activity on Earth. He now lectures in ufology around the world and has been described as 'an elder statesman of the UFO community. Bob tells a story that skillfully presents an astonishing and convincing message: that we are not alone on this planet and never have been. Propelled upon a quest to share his discovery of a highly classified document he came upon during his military career, he has continued his agenda to inform the public about extraterrestrial life and our government's connection. One of the few holders of first-hand knowledge about government involvement with alien life, Mr. Dean recounts the contents of the 1964 report called "an Assessment," the NATO military study that acknowledged and analyzed the implications of the alien presence here on Earth

NASA: PROOF of image tampering <http://www.youtube.com/watch?v=22pk2polNeA>

Since the dawn of the space age, NASA (in conjunction with the Department of Defense and elements attached to the Central Intelligence Agency) have been manipulating and even manufacturing the space imagery they show you. Here is just a bit of the proof that is available out there to demonstrate the fact that you are not being shown anything close to "everything" there was to see up there during the Apollo missions. Stay tuned for Jose Escamilla's new motion picture documentary "MOON RISING", where we will go into much further depth about what is, without exaggeration, the most monumental coverup in human history. You have NO idea what you have been missing! <http://MoonRising-TheMovie.com> - (...) The suppressing of the evidence that there may have been civilizations existing on the Moon, or even more incredible, the possibility they are still there brings into question why we have been kept in the dark. The biggest insult is we've been led to believe the moon is a grey - colorless rock. On the contrary, The Moon appears to be a small planet teeming with life and structures the likes of which you have never seen before until now. At least it appears to have been inhabited in 1994 when these photos were taken. CLIP

<http://www.telegraph.co.uk/news/newstopics/howaboutthat/5031587/Dog-walker-met-UFO-alien-with-Scandinavian-accent.html>

A dog walker claimed she met a man from another planet who said aliens were responsible for crop circles, military UFO files have revealed. - The anonymous woman telephoned RAF Wattisham in Suffolk in a state of distress to describe an encounter she had the previous night. A covering letter in the files notes that it is "one of our more unusual UFO reports". The woman told the operator at the base that the incident happened as she was walking her dog on a sports field close to her home near Norwich at about 10.30pm on November 20 1989. She was approached by a man with a "Scandinavian-type accent" who was dressed in a light brown garment like a flying suit. The report notes: "He asked her if she was aware of stories about large circular flattened areas appearing in fields of wheat, and then went on to explain that he was from another planet similar to Earth, and that the circles had been caused by others like him who had travelled to Earth." "The man said the purpose of their visits was friendly but they were told not to have contact with humans for fear that they would be considered a threat. The woman said she was "completely terrified" and after about 10 minutes the man left. As she ran home she heard a "loud buzzing noise" behind her and turned to see a large glowing orange-white spherical object rising vertically from behind trees. The RAF operator who took the statement from the woman said the conversation lasted about an hour and described it as a "genuine call".

A SPIRITUAL CONSPIRACY

~ author unknown ~

On the surface of the world right now there is war and violence and things seem dark.
But calmly and quietly, at the same time, something else is happening underground
An inner revolution is taking place and certain individuals are being called to a higher light.
It is a silent revolution. From the inside out. From the ground up.
This is a Global operation. A Spiritual Conspiracy.
There are sleeper cells in every nation on the planet.
You won't see us on the T.V.
You won't read about us in the newspaper
You won't hear about us on the radio
We don't seek any glory. We don't wear any uniform
We come in all shapes and sizes, colors and styles
Most of us work anonymously
We are quietly working behind the scenes in every country and culture of the world
Cities big and small, mountains and valleys, in farms and villages, tribes and remote islands
You could pass by one of us on the street and not even notice
We go undercover
We remain behind the scenes
It is of no concern to us who takes the final credit
But simply that the work gets done
Occasionally we spot each other in the street
We give a quiet nod and continue on our way
During the day many of us pretend we have normal jobs
But behind the false storefront at night is where the real work takes a place
Some call us the Conscious Army
We are slowly creating a new world with the power of our minds and hearts
We follow, with passion and joy
Our orders come from the Central Spiritual Intelligence
We are dropping soft, secret love bombs when no one is looking
Poems ~ Hugs ~ Music ~ Photography ~ Movies ~ Kind words ~ Smiles ~ Meditation and prayer ~ Dance ~
Social activism ~ Websites ~ Blogs ~ Random acts of kindness...
We each express ourselves in our own unique ways with our own unique gifts and talents
Be the change you want to see in the world. That is the motto that fills our hearts
We know it is the only way real transformation takes place
We know that quietly and humbly we have the power of all the oceans combined
Our work is slow and meticulous Like the formation of mountains
It is not even visible at first glance
And yet with it entire tectonic plates shall be moved in the centuries to come
Love is the new religion of the 21st century. You don't have to be a highly educated person
Or have any exceptional knowledge to understand it. It comes from the intelligence of the heart
Embedded in the timeless evolutionary pulse of all human beings
Be the change you want to see in the world. Nobody else can do it for you
We are now recruiting. Perhaps you will join us - Or already have.
All are welcome. The door is open
